Program Description

Women's Residential Program Components

The programs offered at Genesis Women's Residential Center are certified by the State of Wisconsin as approved facilities for HFS 75.14 AODA Transitional Residential Treatment, and licensed as Community Based Residential Facilities HFS 83. These programs offer a continuum of care to clients in order to give them every possible chance of recovery. All transitional residential services are planned and delivered in an environment, manner and under arrangements that will achieve and maintain the maximum level of independent functioning for each client.

Treatment planning is in accordance with HFS 75.03 and 75.14 in that Genesis AODA Transitional Residential Treatment staff develop treatment plans for each client within 4 days of program admission based upon assessment information obtained from the client. A discussion with the client takes place to ensure that the plan is tailored to the individual client's needs. The treatment plan is developed in collaboration with other professional staff, the client and when feasible, the client's family or others identified as important to the client, and addresses cultural, gender, disability if any, and age-responsive treatment needs related to substance use disorders, mental disorders and trauma. The plan also contains information, unmet goals and objectives from the client's prior treatment experience. The plan is

reviewed at a minimum every 30 days and documented on a “Staffing Note” in the client’s file. Client participation in the development of the treatment plan is documented in the progress notes. The Treatment Plan is reviewed and signed first by the Clinical Supervisor and Counselor, and secondly by the client and Consulting Physician.

In accordance with HFS 83.33(4), each Genesis Transitional Residential Service provides client group specific services that include but are not limited to the following:

- ✓ Personal care
- ✓ Independent living skills
- ✓ Communication skills
- ✓ Socialization
- ✓ Assistance with self-direction
- ✓ Monitoring symptom status
- ✓ Medications administration instruction

In addition to the services listed above client individualized treatment plans address specific needs, and most clients participate in the following treatment activities:

- **AODA Group Therapy:** Five times per week.
- **AODA Education Group:** Three times per week.
- **Individual Counseling:** Minimum of one time per week.
- **Twelve Step Groups:** Meetings are held regularly within the facilities.
- **Adult Basic Education:** Basic skills and/or work toward a high school diploma/GED/HSED.
- **Living Skills Classes:** basic social skills, household maintenance, parenting, independent living skills, employment skills, STD's education and testing, community referrals, Anger Management, Cognitive Skills Education, Assertiveness, Health Education, Reflections, Relationships, Community Meeting,
- **Medication Management and Monitoring:** In accordance with HSF 83 standard.
- **Recreation Program**
- **Chapel**
- **Dietary Services**

Additionally, the Women's Residential Center provides the following gender specific services:

Domestic Violence, AA, NA, CA, Women's issues topic group five days per week; Peer support group six days per week; 12-Step lecture group once weekly; Women's self-esteem once weekly; Art Therapy.
